The Bible is the Christian's great treasure. Sadly it is often a neglected one. This annual Bible reading plan has been prepared to help God's people explore this great resource. It can be used in various ways. It could be used to read the entire Bible in one year. This is the best use of this plan, as Christians really should read the Bible annually if they are serious about the Christian life. This plan could also be used to read just the Old or New Testaments in one year and thus the entire Bible in about 2 years.

There are many such plans available. This one is different in that it is designed to (as much as possible) give the reader approximately the same number of verses to read each day, while reading in the order that we have the books in our Bible today. This has been difficult to achieve and the result looks deceptively simple. The Psalms and Proverbs are spread through the year to give variety, and to help keep the numbers of verses to read each day near the desired average.
